ANALYSIS OF STUDENT FEEDBACK ON CURRICULUM (Curriculum Feedback Analysis 2022-23)

Programme : M.Tech. - ENVIRONMENTAL ENGINEERING

The sequence of the content is well organized.

Uniformity of syllabus in terms of curriculum load.

Course curriculum is career oriented.

Learning values are inclined for development of skills, concepts, knowledge and analytical abilities.

The curriculum justifies the assigned lectures.

The course curriculum covers the latest developments in relevant areas.

Course curriculum contains scope of relevant activities.

The course content is updated rationally.

The course curriculum has good balance between theory and practical applications.

The Course content encourages self and extra curriculum learning.

ANALYSIS OF ALUMNI FEEDBACK ON CURRICULUM (Curriculum Feedback Analysis 2022-23)

Programme : M.Tech. - ENVIRONMENTAL ENGINEERING

The course curriculum was appropriate for career progression.

Sufficient trainings, seminars, value added courses and PDPs were provided for holistic development.

The programme involved experiential and participative learning.

Research Work/ Project Work/ Internships/ Electives offered under the programme were challenging and constructive.

Proper industry-academia relationship was maintained across the programme.

The curriculum offers courses with practical and hands-on learning experience.

The curriculum was effective to build the opportunities in terms of employability, higher learning and entrepreneurial attitude.

The programme enhances your ability to cope up with a challenging situation and to work in a team.

Relevance of course curriculum to real life situation.

Curriculum is sufficient to impart presentation, report writing and technical skills.

Action Taken Report (2022-23)

M. Tech Environmental Engineering

The points were discussed on the basis of feedback received and the following actions were taken to resolve the recommendation of the stake holders:

S.No.	Recommendations	Action Taken
1.	Credit Minimized in the entire program.	In order to promote research, innovation and IPR in curriculum 70 credits were approved for M.Tech. in Environmental Engineering.
2	Courses content revision	As per the United Nations Agenda 2030 Sustainable Development which is an urgent call for all the countries we incorporated Sustainable Development Goals (MCEE-625).The SDGs goal are universal goals for all people and are inherently global in nature. Learning about the course comes up with revolutionary solutions to environmental problems, Sustainability Risks and Opportunities.
3	Increase in the number of program electives.	Total 13 number of program electives has increased against 6 Program electives in previous curriculum for M.Tech. Environmental Engineering in order to provide more flexibility in terms of selection of courses by the students.
